

CSEA OCCUPATIONAL SAFETY & HEALTH PROGRAM DEVELOPMENT WEBINAR SERIES

Are you ready to be a part of the solution to your workplace safety issues? CSEA has new opportunities to prepare safety and health activists and management to create change within their workplace. Three of the most difficult regulations to comply with are Lock-Out/Tag-Out, Confined Space Entry and Hazard Communication. Each require site-specific assessments and written programs detailing how employers meet the OSHA/PESH requirements. In each of these three webinars, participants will learn how to develop and implement a comprehensive program for the selected training topics. These courses are open to CSEA activists and management who will be working to develop, revise or maintain programs.

LOCK-OUT TAG-OUT

Tuesday, December 5, 2017 10 AM - 12 PM

Registration URL: <https://attendee.gotowebinar.com/register/3737385545132862467>

Most employers in New York are not in compliance with standard 1910.147, the control of hazardous energy. This webinar will help to assess your employer's current Energy Control (Lock-Out/Tag-Out) Program and will provide you with a sample program, templates for equipment-specific energy control procedures. For those who do not have a written program this course will provide all of the information on the components, procedures and best practices needed to create a comprehensive and compliant program.

CONFINED SPACE ENTRY

Tuesday, January 9, 2018 10 AM - 12 PM

Registration URL: <https://attendee.gotowebinar.com/register/6805127440232669699>

Entering permit-required confined spaces can be deadly if the proper precautions are not taken prior to entry. This course will go over all of the requirements that employer's are required to follow, including inventories, assessments permit systems, rescue, monitoring and the requirements of a written program. Sample Programs, permits and assessment tools will be provided.

HAZARD COMMUNICATION/RIGHT-TO-KNOW

Tuesday, February 6, 2018 10 AM - 12 PM

Registration URL: <https://attendee.gotowebinar.com/register/5912577985664663299>

The hazard communication standard requires a high level of site-specific information to be a part of an employer's program. This workshop will give an overview of what your employer must have in place to be compliant and what information is required to be communicated to affected workers. Participants will be given a step by step process putting the parts of a compliant program together, including a written program, chemical inventories and global harmonization requirements.

TO REGISTER, FOLLOW THE LINK ABOVE OR TYPE IT INTO YOUR URL. YOU MUST REGISTER FOR EACH INDIVIDUAL COURSE THAT YOU PLAN TO ATTEND.

PLEASE NOTE THAT THESE ARE NOT COMPLIANCE COURSES AND CANNOT BE USED TO SATISFY YOUR EMPLOYER'S TRAINING REQUIREMENTS. CERTIFICATES WILL NOT BE ISSUED.

NOT AVAILABLE ON THE DAY OF THE WEBINAR? ALL WEBINARS WILL BE AVAILABLE FOR VIEWING ANYTIME AFTER THE COURSE DATE AT:
